

Warehouse Safety Checklist

Use our warehouse safety checklist as a starting point to customize yours to fit your business.

A Warehouse Safety Checklist is a crucial tool for ensuring a safe working environment in a warehouse setting.

This checklist helps to identify potential hazards and enforce safety protocols that protect the health and well-being of all employees.

Regular use of this checklist can significantly reduce the risk of accidents and ensure compliance with occupational safety standards.

Warehouse Safety Checklist

Facility Details:

Name of Warehouse: _____

Location: _____

Date of Inspection: _____

Inspector's Name: _____

General Safety:

- Are all warehouse areas free of clutter and obstacles?
- Are walkways and aisles clearly marked and unobstructed?
- Is there adequate lighting throughout the warehouse?
- Are emergency exits clearly marked and free from obstructions?
- Are fire extinguishers accessible and inspection tags up to date?

Equipment Safety:

- Are forklifts and other machinery in good working condition?
- Is there a regular maintenance schedule for all warehouse equipment?
- Are operators licensed and trained for the equipment they operate?
- Are load capacities clearly posted on shelves and lifting equipment?

Hazardous Materials:

- Are hazardous materials stored in compliance with regulations?
- Are Material Safety Data Sheets (MSDS) available for all hazardous substances?
- Is appropriate personal protective equipment (PPE) provided and used when handling hazardous materials?
- Are spill kits and first aid kits accessible and stocked?

Fire Safety:

- Are sprinkler systems tested and functioning?
 - Is the signage for fire safety equipment and exits clearly visible?
-

- Are all electrical systems and wiring up to code and in good condition?
- Is there a clear protocol for responding to a fire emergency?

Ergonomics and Staff Welfare:

- Are manual handling and lifting training provided to staff?
- Are workstations and packing tables ergonomically designed to prevent strain?
- Is there adequate provision for breaks, with clean rest areas?
- Are all staff members provided with suitable personal protective equipment?

Security Measures:

- Is the warehouse equipped with a working security system and surveillance cameras?
- Are there procedures in place for controlling access to the warehouse?
- Is there a system for reporting and investigating security breaches?

Dock Safety:

- Are dock areas well-lit and free of obstructions?
- Are dock plates and levelers in good working condition?
- Are trucks and trailers secured properly during loading and unloading?

Environmental Controls:

- Is the warehouse ventilated adequately to manage fumes and dust?
- Are temperature and humidity levels monitored and controlled if necessary?

Comments & Additional Observations:

(Provide detailed notes on any issues found and potential improvements.)

Confirmation of Inspection:

I confirm that I have conducted a thorough safety inspection of the warehouse and documented all findings accurately.

Signature: _____ Date: _____

The completion of this Warehouse Safety Checklist is essential for maintaining a safe and efficient operation.

Regular inspections help mitigate risks, ensure safety compliance, and foster a culture of continuous improvement within the warehouse environment.

By addressing any identified issues promptly, warehouse managers can prevent accidents, improve operational efficiency, and provide a safe working environment for all employees.

Choose Connecteam, the #1 Choice for Safety Management
